Voter-Approval Tax Rate for Taxing Units in a Disaster Area Other Than School Districts or Water Districts

Recalculation of Voter Approval Tax Rate for Taxing Units in Disaster Area Worksheet

In the tax year after the end of the disaster calculation time period detailed in Tax Code Section 26.042(a), a taxing unit that calculated its voter-approval tax rate in the manner provided for a special taxing unit due to a disaster must calculate its emergency revenue rate and reduce its voter-approval tax rate for that year.

To do so, the taxing unit must recalculate the voter-approval tax rate the taxing unit would have calculated in the year the disaster occurred if it had generated revenue based on an adopted tax rate using a multiplier of 1.035 in the year(s) following the disaster. The recalculated 2022 voter-approval tax rate for a taxing unit in a disaster area will be entered on Line 74 of the 2023 Tax Rate Calculation Worksheet.

This worksheet applies to a taxing unit other than a special taxing unit that:

- directed the designated officer or employee to calculate the voter-approval tax rate of the taxing unit in the manner provided for a special taxing unit in 2021 or subsequent years; and
- 2023 is the first tax year in which the total taxable value of property taxable by the taxing unit as shown on the appraisal roll for the taxing unit submitted by the assessor for the taxing unit to the governing body exceeds the total taxable value of property taxable by the taxing unit on January 1 of the tax year in which the disaster occurred or 2023 is the third tax year in which the disaster occurred.

Complete applicable sections or lines. Note: Sections 3 and 4 are not applicable for the 2023 tax year calculation worksheets and are for illustrative purposes only.

Complete Section 1 if the disaster occurred in 2022 and the taxing unit calculated its voter-approval tax rate using a multiplier of 1.08 in 2022 and is no longer eligible to calculate the voter-approval tax rate using a multiplier of 1.08 in 2023.

Complete Section 2 if the disaster occurred in 2021 and the taxing unit has calculated its voter-approval tax rate using a multiplier of 1.08 since 2021 and is no longer eligible to calculate the voter-approval tax rate using a multiplier of 1.08 in 2023.

Complete Section 3 if the disaster occurred in 2021 and the taxing unit has calculated its voter-approval tax rate using a multiplier of 1.08 since 2021 and is no longer eligible to calculate the voter-approval tax rate using a multiplier of 1.08 in 2024.

Complete Section 4 if the disaster occurred in 2021 and the taxing unit calculated its voter-approval tax rate using a multiplier of 1.08 since 2021.
